

PIUSI

 **B.SMART**

If you manage a tank rental company
or are involved in diesel distribution.
MASTERSITE is the ideal solution for you!

**Multi-site management
designed for tank rental!**

B.Smart MasterSite is the intelligent management ecosystem designed to turn the complexity of tank rental into a simplified and automated workflow. Allows **rental and fuel distribution companies to maximize asset profitability by reducing downtime for maintenance and simplifying field operations.**

How does MASTERSITE help you simplify management?

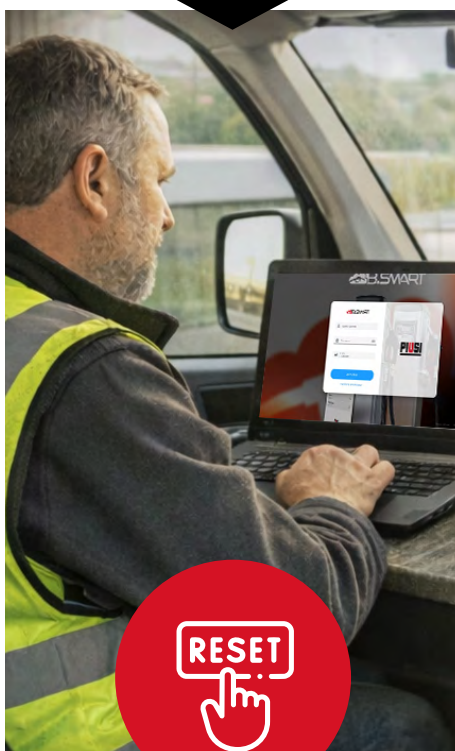

For those who manage rental contracts:

Less complexity operational

Open contracts with your customers **in a simple** and completely secure way

For those who manage rental logistics:

Maximum flexibility

When the tanks return, quickly perform the **reset of the B.SMART pump** in a simple and guided way.

For those who use the rental service:

More convenience

Dispense and use B.SMART directly with your tank, in a practical and efficient way.

What are the benefits of MASTERSITE?

For those who rent:

• Quick activation:

Ability to quickly enable or disable add-ons as needed.

• Modular services:

Services provided according to the specific rental contract.

• **Monitor the fuel level in the tank in real time** thanks **to the Tank Watchdog add-on**. You will always know when it's time to refuel.

Is the contract finished?

Simplified reset of control units

- Reduced downtime: Faster recovery times between rentals.

For customers:

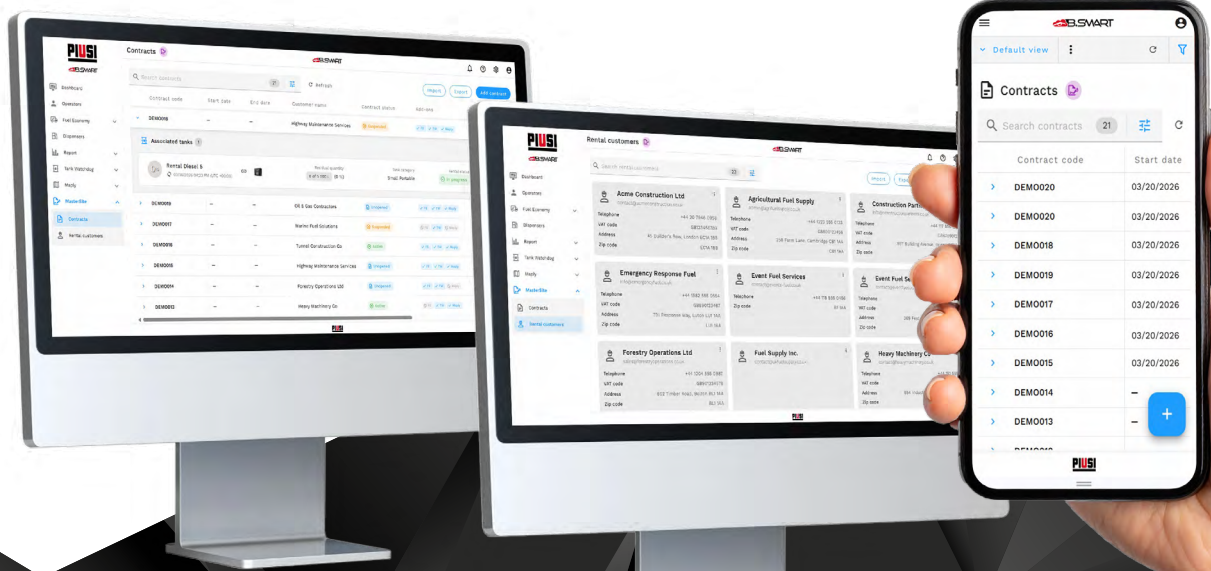

• Dedicated environments:

Each customer has their own private workspace.

• Data isolation:

Clear separation of data and configurations between users.

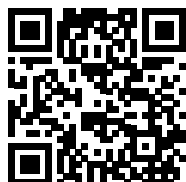

• **Never run out!** The data can be sent automatically to the rental company, which can intervene to refuel on your behalf.
